Data Output & File Formats

- Record sets are available in your choice of either 'relational' or 'flat' tables.
- Data can be supplied as a DBF file, Excel file, MS Access, simple Text or CSV file.
- Physical data exports are supplied on CD, or, dependent of file size, can be sent as an attachment to an email.
- All data and export media is Virus checked before being supply to end-users.
- Data files are seeded to detect unauthorised usage.
- Usage monitoring is conducted by an Independent third party contracted to D2.
- Data samples are available on request.

Preference File Screening

Please note that data sets are not automatically supplied pre-screened against Preference Files. It is the end-users responsibility to ensure that data files are maintained and suppressed against the Mailing, Telephone and Fax Preference files. However, we can provide screening services to clients on request.
