Data Output & File Formats

- Record sets are available in your choice of either 'relational' or 'flat' tables.
- Data can be supplied as a DBF file, Excel file, MS Access, simple Text or CSV file.
- Physical data exports are supplied on CD, or, dependent of file size, can be sent as an attachment to an email.
- All data and export media is Virus checked before being supply to end-users.
- Data files are seeded to detect unauthorised usage.
- Usage monitoring is conducted by an Independent third party contracted to D2.
- Data samples are available on request.

Preference File Screening

Please note that data sets are not automatically supplied pre-screened against Preference Files. It is the end users responsibility to ensure that data files are maintained and suppressed against the Mailing, Telephone and Fax Preference files. However, we can provide screening services to clients on request.
